Volume 27, Part 2, March 1990

Original Articles

99 Reference ranges for serum creatinine in infants, children and adolescents
D J Savory

102 Changes in size and zinc protoporphrin/haemoglobin ratio in red cells of infants during the first months of life
P C Bartels, P W Helleman, J B J Soons

107 Insulin-like growth factor 1 in patients with hypoglycaemia
M Labib, D Teale, V Marks

110 The relationship between serum cholesterol and serum thyrotropin, thyroxine and tri-iodothyronine concentrations in suspected hypothyroidism
J Elder, A McLelland, D StJ O'Reilly, C J Packard, J J Series, J Shepherd

114 Detection of antibodies to the human immunodeficiency virus by a silver-enhanced gold-labelled immunosorbent assay
B F Rocks, V M R Betram, M P Bailey

121 A lectin-based monoclonal enzyme immunoassay to distinguish fucosylated and non-fucosylated α-fetoprotein molecular variants
Y Suzuki, Y Aoyagi, M Muramatsu, K Igarashi, A Saito, M Oguro, M Isemura, H Asakura

129 An automated assay of glycogen phosphorylase in the direction of phosphorolysis
W E Schreiber, S Bowling

133 Results of a quality assurance exercise for urinary glycosaminoglycan excretion
A Brimble, C Pennock, J Stone

139 A theoretical study of carryover in selective access analysers
K Dixon

143 Laboratory instrument evaluation using a personal computer
A M Wooton, M Stringer

147 Syringe injection pressure: a neglected factor in blood Po_2 determination
P Gosling, G Dickson

152 Interference by haemoglobin with the cresolphthalein complexone method for serum calcium measurement
C M Corns

Short Reports

156 How well do nurses perform blood glucose analyses at the diabetic clinic? An assessment using the Reflotron analyser
L A Smith, J McNaught, A S Hutchison

158 A case of IgM(κ) monoclonal gammopathy simulating an IgM-IgG biclonal gammopathy
V Bellotti, C Gasparro, E Bucciarelli, G Merlini, F Aguzzi

161 Background turbidity changes during the estimation of urinary albumin
H Dhar, B A Fielding, M L Clark, K N Frayn

163 Inadequacy of urinary urea for the estimation of nitrogen balance during total parenteral nutrition
E J Burgess, A Fleck

165 Analytical sensitivity and specificity of two screening methods for urinary porphobilinogen
J E Buttery, A M Carrera, P R Pannall

167 The quantitation of pleural hyaluronic acid by an immunoenzymoassay
J Bertrand, B Delpech, C Maingonnart, P Bertrand, J Picard

Letters

169 Amylase and macroamylasaemia
S J Frost

169 Author's reply
A Van Deun

171 From little acorns
G Higgins
